## Profile

With over 25 years of experience, The Coldroom Kahuna delivers professional cold room installation HVAC systems agricultural ventilation solutions for green houses, hospitality, poultry farms ware houses hospitals and food storage facilities in eastern and central Africa.

## Mission

To provide excellent design , engineering, installation and service cold room equipment.

## Values.

Integrity

Team work

Accountability

Organizational responsibility

Social responsibility

Customer service

## Product Overview

The Coldroom Kahuna is a trusted provider of cold storage, refrigeration, ventilation, and environmental control solutions designed to meet the demanding requirements of modern businesses. We specialize in the supply, installation, and maintenance of high-performance cold rooms, freezer rooms, ventilation systems, and extractor fans that ensure optimal storage conditions, operational efficiency, and regulatory compliance.

Built with premium insulation materials, energy-efficient refrigeration systems, and advanced environmental controls, our products provide reliable temperature management while minimizing operating costs. We also offer ventilation and extractor fan systems that improve air circulation, remove excess heat and humidity, and create safer, healthier working environments.

## Key Product Categories

1. Cold Rooms and Freezer Rooms
2. Ventilation & Air Movement Solutions
3. Refrigeration equipment
4. Refrigerants & Refrigeration Gases
5. Refrigeration Oils & Lubricants

## Why Choose The Cold Room Kahuna?

The Cold Room Kahuna is committed to providing innovative cold chain and environmental control solutions that help businesses protect their products, improve operational efficiency, and maintain the highest standards of quality and safety.

# Key Product Categories

## Cold Rooms & Freezer Solutions

Complete cold storage solutions for reliable temperature control and product preservation. Our range includes blast freezers, chillers, milk cooling units, monoblock refrigeration units, cold room doors, evaporators, control panels, rubber gaskets, compressor star boxes, balance windows, and professional installation and maintenance services.

**Applications:** Food Storage • Dairy • Healthcare • Pharmaceuticals • Hospitality • Agriculture • Retail.

Blast freezer and chiller

2hp monoblock refrigeration unit

Coldroom door lock with safety release

Coldroom control panel

Cold room hinged door

Compressor start box for coldrooms

Coldroom evaporator

Cold room door rubber gasket

Milk cooling refrigeration unit

## Ventilation & Air Movement Solutions

Efficient ventilation systems designed to improve airflow, remove heat, humidity, smoke, and odors, and maintain healthy indoor environments. Our range includes extractor fans, axial fans, centrifugal fans, inline fans, airflow meters, flexible ducting, and ventilation accessories for commercial, industrial, healthcare, and food processing applications.

**Benefits:** Improved Air Quality • Enhanced Comfort • Energy Efficiency • Reliable Performance • Professional Installation & Support.

**Upblast roof fan**

**Heat extractor fan**

**Industrial air circulator**

**Industrial axial flow ventilation fan**

**Industrial box fan**

**Industrial extractor fan**

**Portable industrial fan with smart control system**

**Portable ventilation fan 300mm(12 inch) with flexible duct**

**Axial fan high pressure RPM 5.5 KW 15000m3 volume**

**Coldroom condenser fan**

**Centrifugal blower fan (industrial Process Fan)**

**Ceiling diffuser with dump**

**Ceiling air grille with damper**

**Wall mounted Kitchen and container ventilation fan for heat and smoke extraction**

**Wind driven roof ventilators|ventilators|unpc ventilators| cyclone**

**Xpelair window fan high performance extractor fan**

**Silent inline duct fan**

**Circular duct ventilation fan**

## Air conditioners

Gree air conditioners

LG ceiling cassette

LG Split High wall air con

Nedfon air curtain

Portable air conditioner

## Refrigeration Equipment

Reliable refrigeration components designed to deliver efficient cooling and temperature control for cold rooms, freezer rooms, and commercial refrigeration systems. Our range includes compressors, condensing units, and evaporators, engineered for high performance, energy efficiency, and long-term durability.

**Benefits:** Efficient Cooling • Reliable Performance • Energy Savings • Durable Construction • Easy Integration.

Bitzer compressor

bitzer compressor mk3 flywheel

Bitzer condensing unit

Embraco condensing unit

Commercial refrigeration condensers

Copeland scroll compressor

Danfoss secop refrigeration compressor

Danfoss manuop compressor

Hermetic refrigeration comp.

Valve Tecumseh Compressor R404A

Dual discharge evaporator

## Refrigerants & Refrigeration Gases

We supply a wide range of high-quality refrigerants from leading brands for refrigeration, cold room, freezer room, and air conditioning systems. Our product range includes refrigerants suitable for commercial, industrial, and HVAC applications, ensuring efficient cooling performance and reliable system operation.

### Available in Various Brands and Refrigerant Types

**Benefits:** Efficient Cooling • System Reliability • Energy Efficiency • Wide Application Compatibility.

#### Freon R508B

11.3 kg Net. Wt.

## Refrigeration Oils & Lubricants

We supply a wide range of premium refrigeration oils and lubricants from leading brands, designed to ensure optimal compressor performance, reduce wear, and extend equipment lifespan. Suitable for cold rooms, freezer rooms, refrigeration systems, and air conditioning applications.

**Available in Various Brands and Oil Types**

**Benefits:** Enhanced Compressor Protection • Improved System Efficiency • Reduced Maintenance Costs • Long Equipment Life.

Bitzer compressor oil

Emkarate refrigeration oil

Suniso Refrigeration oil

Vacuum pump oil

External condenser coil cleaners

## HVAC equipment and accessories.

We provide a comprehensive range of HVAC equipment and accessories designed to enhance indoor comfort, air quality, and system efficiency. Our product range includes; differential pressure switch, condensate drain pumps, digital thermostat, airflow meters, flexible ducting, ventilation components, and other essential HVAC accessories for residential, commercial, and industrial applications.

### Available in Various Brands and Models

**Benefits:** Improved Air Quality • Energy Efficiency • Reliable Performance • Easy Installation • Long-Term Durability.

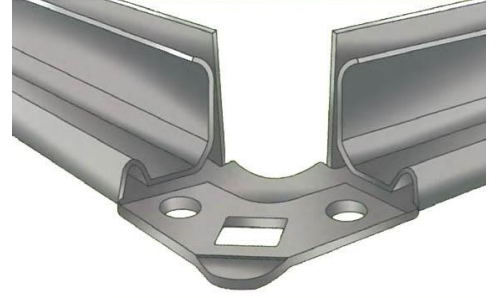

Differential pressure switch

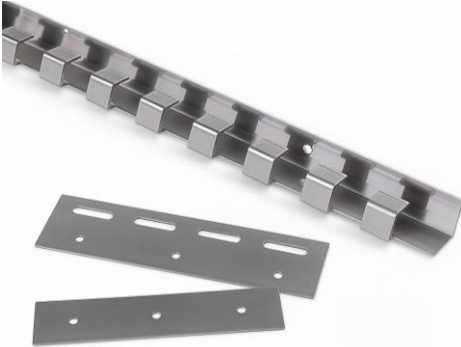

Digital thermostat

Duct flanges and duct corners

Stainless steel accessories for PVC curtains

Filter drier core

air conditioner condensate drain pump

Airflow meter

Map gas torch

Linear slots air grille

Moisture indicator (sight glass)

Manifold gauge set

PVC strip curtain|plastic air curtain

Refrigeration copper tubes and copper fittings

Refrigeration filter driers

Solenoid Valve

Refrigeration oil separator

Thermostatic expansion valves with interchangeable orifice

Three phase automatic voltage switchers

Amoflex tubing insulation

Amrflex insulation sheet

PIR panel sheet (pal sheet)

Brazing rods for refrigeration

Flexible aluminium duct

### Specialized Equipment & Components

A range of specialized equipment and components for refrigeration, commercial, and industrial applications, including ice making machines, thermostats, vacuum pumps, motors, and related accessories.

**Benefits:** Reliable Performance • Quality Brands • Versatile Applications.

Washing machine spin motor

Commercial ice maker

Vacuum pump

Ice maker thermostat

## Installation & Support

Our experienced team provides professional installation, commissioning, maintenance, and technical support services for cold rooms, refrigeration systems, ventilation equipment, and HVAC solutions. We are committed to ensuring reliable performance, maximum efficiency, and long-term customer satisfaction.

**Services:** Installation • Preventive Maintenance • Repairs • Technical Support • System Upgrades

## Projects & Successful Installations

The Cold Room Kahuna has successfully delivered cold room, refrigeration, ventilation, and HVAC projects for businesses across various sectors, including healthcare, hospitality, food processing, retail, agriculture, and commercial facilities. Our installations are tailored to meet customer requirements while ensuring efficiency, reliability, and quality.

Applications: Cold Rooms • Freezer Rooms • Milk Cooling Systems • Ventilation Systems • Commercial Refrigeration
