

600 mm Industrial Exhaust Fan

**The Cold Room Kahuna
Industrial Ventilation Solutions**

Product Overview

This 600 × 600 × 400 mm galvanized steel industrial exhaust fan is designed for high-performance ventilation in poultry houses, greenhouses, warehouses, factories, workshops, commercial kitchens and cold rooms. Stainless steel blades and an IP55 motor provide reliable airflow and long service life.

Technical Specifications

Parameter	Specification
Fan Size	600 × 600 × 400 mm
Motor	Single Phase YYSF71-4
Power	0.37 kW
Voltage	220 V
Frequency	60 Hz
Speed	1700 RPM
Current	2.2 A
Protection	IP55
Insulation	Class F
Blade	Stainless Steel
Housing	Galvanized Steel
Drive	Direct Drive

Performance

Performance	Value
Estimated Air Volume	8,000–10,500 m³/h (estimated)
Application	Wall-mounted exhaust ventilation
Noise	Low noise operation
Efficiency	Energy efficient

Applications

- Poultry Houses
- Greenhouses
- Dairy Farms
- Warehouses
- Factories
- Cold Rooms
- Commercial Kitchens

Features & Benefits

- High airflow
- Energy efficient motor
- Corrosion-resistant galvanized housing
- Stainless steel blades
- Easy installation
- Low maintenance
- Long service life
- Suitable for continuous operation
